The International Guide to Speech Acquisition

Sharynne McLeod, Ph.D.

©2007

ISBN-10: 1-4180-5360-0

ISBN-13: 978-1-4180-5360-4

~~List price: \$53.95~~ **Sale Price \$43.16**

Ideal for speech-language pathologists working with children from a wide variety of language backgrounds, this comprehensive resource guide will allow them to identify children who are having speech difficulties, and provide age-appropriate prevention and intervention targets. The text has been carefully compiled to provide a description of many major English dialects, comparing them with General American English. It also contains comprehensive information about typical speech acquisition for over 20 other languages. This resource guide was written by over 70 recognized authorities from around the world.

- Only international speech-acquisition guide designed specifically for SLPs working with children who speak a dialect or language other than General American English.
- Structured around the International Classification of Functioning Disability and Health (World Health Organization)
- More than 30 combined English dialects and non-English languages covered.
